

# GLOBAL OUTREACH (GO) TEAMS -

## ALGERIA

---

Algeria is one of the least reached countries in the world and its people desperately need the truth of Christ. During this trip you will have a chance to experience full culture immersion by living with a North African host family and experience everyday life with them. Specific opportunities on this trip include a seminar for women where you can share and discuss topics like: how God truly views and values them, struggles with eating disorders, skin bleaching and other sensitive issues. Other opportunities are teaching English to refugees and taking part in a religious dialogue between Muslim and Christian leaders. By building relationships with the people and serving them we are showing God's truth and love to the Muslim people of Algeria. Be a part of the first team from YWAM Orlando to reach the people of this nation.
